Schedule #2—Required Attachments & Prov County-district number or vendor ID: 015807	Amendment # (for amendments only):
Part 3: Program-Specific Provisions & Assurances	

I certify my acceptance of & compliance with all program-specific provisions & assurances listed below.

I certify my acceptance of & compliance with all program-specific provisions & assurances listed below.
Provision/Assurance
The applicant provides assurance that program funds will supplement (increase the level of service), & not supplant (replace) state mandates, State Board of Education rules, & activities previously conducted with state or local funds. The applicant provides assurance that state or local funds may not be decreased or diverted for other purposes merely because of the availability of these funds. The applicant provides assurance that program services & activities to be funded from this grant will be supplementary to existing services & activities & will not be used for any services or activities required by state law, State Board of Education rules, or local policy.
The applicant provides assurance that the application does not contain any information that would be protected by the Family Educational Rights & Privacy Act (FERPA) from general release to the public.
The applicant provides assurance that, if it receives these program funds to serve one or more campuses, it will ensure each campus receives all of the state & local funds it would have received in the absence of these program funds. As a result, an LEA must provide the TTIPS grantee campus all of the non-Federal funds the campus would have received were it not a TTIPS grantee campus, & these program funds must supplement the <i>amount</i> of those non-Federal funds. Note, however, that the campus does not need to demonstrate that these program funds are used only for activities that supplement those activities the campus would otherwise provide with non-Federal funds.
The applicant provides assurance that the education program described below is unique to the applicant LEA & the eligible campus for which the application is being submitted. An applicant that plagiarizes or copies any other application does not meet this standard & will be disqualified.
 The LEA provides assurance that it will meet the following federal requirements: Establish annual goals for student achievement on the State's assessments in both reading/language arts & mathematics, measure progress on the leading indicators in section III of the final requirements & establish goals to hold schools receiving school improvement funds accountable. If it implements a restart model in a school, hold the charter operator, charter management organization, or education management organization accountable for complying with the final requirements, & it includes these terms in its contract or provisions. Monitor & evaluate the actions a school has taken, as outlined in the approved TTIPS application, to recruit, select & provide oversight to external providers to ensure their quality. Monitor & evaluate the actions schools have taken, as outlined in the approved TTIPS application, to sustain the reforms after the funding period ends & that it will provide technical assistance to schools to sustain progress in the absence of TTIPS funding. Report school-level data to the SEA required under section III of the final requirements, & included in the Program Guidelines of this RFA.
The LEA provides assurance that it will participate in any evaluation of the grant conducted by the U.S. Department of Education, including its contractors, or the Texas Education Agency, including its contractors.
The LEA/campus provides assurance that if it selects to implement the <u>Transformation Model</u> , the campus will meet all of the following federal requirements: 1. Develop & increase teacher & school leader effectiveness. (A) Replace the principal who led the school prior to commencement of the transformation model; (B) Use rigorous, transparent, & equitable evaluation systems for teachers & principals that i. Take into account data on <i>student growth</i> as a significant factor as well as other factors such as multiple observation-based assessments of performance & ongoing collections of professional practice reflective of student achievement & increased high school graduation rates; & ii. Uses the definition of <i>student growth</i> as: the change in achievement for an individual student between two or more points in time. For grades in which the State administers summative assessments in reading/ language arts & mathematics, student growth data must be based on a student's score on the State's assessment under section 1111(b)(3) of the ESEA. A State may also include other measures that are rigorous & comparable across classrooms.

For TEA	Use Only
Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

iii. Are designed & developed with teacher & principal involvement;

- (C) Identify & reward school leaders, teachers, & other staff who, in implementing this model, have increased student achievement & high school graduation rates & identify & remove those who, after ample opportunities have been provided for them to improve their professional practice, have not done so;
- (D) Provide staff ongoing, high-quality, job-embedded professional development (e.g., regarding subject-specific pedagogy, instruction that reflects a deeper understanding of the community served by the school, or differentiated instruction) that is aligned with the school's comprehensive instructional program & designed with school staff to ensure they are equipped to facilitate effective teaching & learning & have the capacity to successfully implement school reform strategies; &
- (E) Implement such strategies as financial incentives, increased opportunities for promotion & career growth, & more flexible work conditions that are designed to recruit, place, & retain staff with the skills necessary to meet the needs of the students in a transformation school.
- 2. Deliver comprehensive instructional reform strategies.
 - (A) Use data to identify & implement an instructional program that is research-based & vertically aligned from one grade to the next as well as aligned with State academic standards; &
 - (B) Promote the continuous use of student data (such as from formative, interim, & summative assessments) to inform & differentiate instruction in order to meet the academic needs of individual students.
- 3. Increase learning time & create community-oriented schools.
 - (A) Establish schedules & strategies that provide increased learning time; using a longer day, week or year; & by addressing each of the following areas:
 - Additional time for instruction in core academic subjects including English, reading or language arts, mathematics, science, foreign languages, civics & government, economics, arts, history, & geography.
 - ii. Additional time for instruction in other subjects & enrichment activities that contribute to a well-rounded education, including, for example, physical education, service learning, & experiential & work based learning opportunities that are provided by partnering, as appropriate, with other organizations.
 - iii. Additional time for teachers to collaborate, plan, & engage in professional development within & across grades & content areas.
 - (B) Provide ongoing mechanisms for family & community engagement.
- 4. Providing operational flexibility & sustained support.
 - (A) Give the school sufficient operational flexibility (such as staffing, calendars/time, & budgeting) to implement fully a comprehensive approach to substantially improve student achievement outcomes & increase high school graduation rates; &

Ensure that the school receives ongoing, intensive technical assistance & related support from the LEA, the SEA, or a designated external lead partner organization (such as a school turnaround organization or an education management organization (EMO)).

The LEA/campus provides assurance that if it selects to implement the <u>Texas State-Design Model</u>, the campus will deliver a comprehensive school improvement strategy, implemented for all students in the school, which is consistent with the Texas concept for developing an *Early College High School* (ECHS).

By implementing an ECHS, the LEA/campus is delivering a whole-school reform model that:

- Improves student academic achievement or attainment
- Is implemented for all students in the school

8.

- Addresses in a comprehensive & coordinated manner:
 - o improvement in school leadership
 - o improvement in teaching & learning in academic content areas
 - o professional learning for educators
 - student non-academic supports

In doing so, the LEA/campus will implement the following:

- 1. Pursue designation as a Texas Early College High School, with a target of earning TEA ECHS designation & full-operation as an ECHS, no later than the start of the second year of the TTIPS grant implementation period; Fall 2017.
- 2. Provide a rigorous course of study that enables students to receive a high school diploma & complete the

For TEA	Use Only
Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

- Texas Higher Education Coordinating Board's (THECB) core curriculum; or an associate's degree; or at least 60 credit hours toward a baccalaureate degree during grades 9-12.
- 3. Provide college credit earned through the high SYs for all students at no cost; including tuition, fees & textbook costs.
- 4. Develop & increase teacher & school leader effectiveness, in a manner consistent with the requirements of the federal school improvement grant Transformation model. I doing so, the LEA/campus must use rigorous, transparent & equitable evaluation systems for teachers & principals that take into account data on student growth as a significant factor, as well as other factors such as multiple observation-based assessments of performance & ongoing collections of professional practice reflective of student achievement.
- 5. While implementing for all students, the program specifically identifies students for more intensive supports. These students include those at-risk for dropping out of school, as defined in Texas statedefined criteria in TEC §29.081, & students historically underrepresented in college courses. In developing & providing the more intensive supports, the LEA/campus will have:
 - (A) Data to identify the population at risk of dropping out of school;
 - (B) Quantitative & qualitative data to identify students least likely to attend college/those historically underrepresented in college courses;
 - (C) Early College brochures in all languages relevant to the school community;
 - (D) Written communication plan for relevant target audiences: parents, community members, school

Adapted from Texas Early College High School Blueprint, Benchmark 1

- 6. By the start of TTIPS full-implementation (Fall 2017), the LEA/campus will have key partnerships in place that will enable success as an ECHS. Key partnerships include:
 - (A) Partnership between the school district & an institute of higher education (IHE) that:
 - i. Is marked by a signed Memoranda of Understanding with current signature each year of implementation.
 - ii. Defines the partnership between the LEA/campus & the IHE & addresses topics including, but not limited to: the ECHS location, the allocation of costs for tuition, fees, textbooks, & student transportation:
 - iii. Defines an active partnership between the school district(s) & the IHE(s), which shall include joint decision-making procedures that allow for the planning & implementation of a coherent program across institutions; &
 - iv. Includes provisions & processes for collecting, sharing, & reviewing program & student data to assess the progress of the ECHS.
 - (B) Contract/partner with a Texas ECHS demonstration site or other Texas ECHS that has retained designation for at least the last four consecutive years & assessed as exemplary using the Texas ECHS Blueprint, or other ECHS selected as a match partner site by the TEA.

Adapted from Texas Early College High School Blueprint, Benchmark 2.

7. By the start of TTIPS planning/pre-implementation year (February 1, 2017), the LEA & key partners must have developed & be maintaining a LT focused on P-16 Leadership Initiatives that meets regularly to address issues of the ECHS design & sustainability. At minimum, the membership shall include the campus principal & individuals with decision-making authority from both the LEA & IHE.

Adapted from Texas Early College High School Blueprint, Benchmark 3.

- 8. Once designated, the LEA/campus will work with a TEA approved Texas ECHS technical assistance provider, & fulfill any conditions required to maintain TEA designation status.
- 9. Provide a curriculum that offers a rigorous & accelerated course of study, in both college-credit bearing courses & preparatory/college readiness courses. Additionally, the program must provide students with the academic, emotional & social supports necessary to be successful in the rigorous course of study. The curriculum & supports must meet the following:
 - (A) Beginning in TTIPS first year of full-implementation (Fall 2017), have curriculum in place that allows all students to graduate high school with at least six semester credit hours toward a baccalaureate degree.
 - (B) By TTIPS second year of full-implementation (Fall 2018), have curriculum in place that enables students to receive a high school diploma & complete the Texas Higher Education Coordinating

- Board's (THECB) core curriculum (as defined by TAC §4.28); or an associate's degree; or at least 60 credit hours toward a baccalaureate degree during grades 9-12.
- (C) Possess a written course of study plan showing how students will progress as an ECHS graduate. The plan must provide pathways to a baccalaureate degree & follow the courses & fields of study listed in the THECB Lower Division Academic Course Guide Manual.
- (D) Beginning in the TTIPS first year of full-implementation, the campus will provide academic supports to the students in the form of: extended learning time sessions for tutoring, advisory &/or college readiness support time built into the program of study, & a college-readiness mentorship program.
- (E) Beginning in the TTIPS planning/pre-implementation year, the campus will provide social & emotional supports to the students, including: connections to social services, parent outreach & involvement opportunities.
- (F) Beginning in the TTIPS first year of full-implementation, the campus will provide college awareness & access services to students & families, including: college application assistance, financial aid counseling, college & career counseling.

Adapted from Texas Early College High School Blueprint, Benchmark 4.

10. By the TTIPS first year of full-implementation, the campus shall provide for the administration of the Texas Success Initiative (TSI) college placement exam to students in order to assess college readiness, design individual instruction plans, & enable students to begin college courses based on their performance. Fees associated with assessment administrations must be waived/covered for all students.

Adapted from Texas Early College High School Blueprint, Benchmark 5.

- 11. By the start of the TTIPS second year of full-implementation (Fall 2017), the campus will provide a full-day program that operates with:
 - (A) An IHE liaison with decision-making authority who interacts directly & frequently with the campus staff & administrators:
 - (B) A highly qualified teaching staff possessing appropriate level of certification, training & ongoing supports to teach college-bearing courses to high school students.
 - (C) Clear opportunities for students to have regular use (at least six times per SY) of college academic facilities, regardless of early college school site.
 - (D) Opportunities for high school faculty & staff to receive regular training & support; in collaboration with the IHE faculty & staff.

Adapted from Texas Early College High School Blueprint, Benchmark 6.

The Texas concept for an Early College High School is fully described in the following resources:

- Texas Education Agency, Early College High School program
- Texas Education Code §29.908
- Texas Administrative Code §4.161
- 19 Texas Administrative Code Chapter 102 Educational Programs Subchapter GG: <u>Commissioner's Rules</u> <u>Concerning Early College Education Program</u>

The applicant provides assurances that the LEA/campus administering the state-design model will apply for Texas ECHS designation, no later than applications are available for schools that wish to be designated for the 2018-2019 SY.

The LEA/campus provides assurance that if it selects to implement the **Early Learning Intervention Model**, the campus will implement in an elementary school & in accordance with the following federal & state requirements:

- 1. Implement in an elementary school that is eligible under this grant program; further assuring that any student receiving services funded through the grant program is enrolled in the grantee school.
- 2. Offer full-day kindergarten.

9.

- 3. Establish or expand a high-quality preschool program. A high-quality program includes structural elements that are evidence-based & nationally recognized as important for ensuring quality. Implementation under this grant program must meet the requirements of a high-quality preschool program, as defined in the U.S. Department of Education's Preschool Development Grants program. Under this definition, program must have:
 - (A) High staff qualifications, including a teacher with a bachelor's degree in early childhood education or a bachelor's degree in any field with a state-approved alternative pathway;
 - (B) High-quality professional development for all staff;
 - (C) A child-to-instructional staff ratio of no more than 10 to 1;

12.

to meet the needs of the students in the turnaround school

- 4. Provide staff ongoing, high-quality, job-embedded professional development that is aligned with the school's comprehensive instructional program & designed with school staff to ensure that they are equipped to facilitate effective teaching & learning & have the capacity to successfully implement school reform strategies;
- 5. Adopt a new governance structure, which may include, but is not limited to, requiring the school to report to a new turnaround office in the LEA or SEA, hire a turnaround leader who reports directly to the Superintendent or Chief Academic Officer, or enter into a multi-year contract with the LEA or SEA to obtain added flexibility in exchange for greater accountability;
- 6. Use data to identify & implement an instructional program that is research-based & vertically aligned from one grade to the next, as well as aligned with State academic standards;
- 7. Promote the continuous use of student data (such as from formative, interim, & summative assessments) to inform & differentiate instruction in order to meet the academic needs of individual students;
- Establish schedules & strategies that provide increased learning time; using a longer day, week or year; & by addressing each of the following areas:
 - (A) Additional time for instruction in core academic subjects including English, reading or language arts, mathematics, science, foreign languages, civics & government, economics, arts, history, & geography.
 - (B) Additional time for instruction in other subjects & enrichment activities that contribute to a well-rounded education, including, for example, physical education, service learning, & experiential & work based learning opportunities that are provided by partnering, as appropriate, with other organizations.
 - (C) Additional time for teachers to collaborate, plan, & engage in professional development within & across grades & content areas.
- 9. Provide appropriate social-emotional & community-oriented services & supports for students. If selecting the turnaround model, the applicant agrees to the participation of the campus principal or principal

candidates in a formative assessment of their turnaround leadership capacity.

The LEA/campus provides assurance that if it selects to implement the **Whole-School Reform Model**, the campus will meet all of the following federal requirements:

- 1. Implement an evidence-based whole-school reform in partnership with a model developer.
 - (A) The model developer is an entity or individual that either has proprietary rights to the model or an entity or individual that has a demonstrated record of success in implementing wholeschool reform models in one or more low-achieving school.
- 2. The whole-school reform model selected must be supported by at least one study that demonstrates its efficacy. The federal SIG office has approved specific whole-school reform models that meet this evidence standard, published here: http://www2.ed.gov/programs/sif/sigevidencebased/index.html These approved models are supported by:
 - (A) A study of efficacy that meets What Works Clearinghouse evidence standards.
 - (B) A study that shows statistically significant favorable impact on student academic achievement or attainment outcome.
 - (C) A study which used a large sample & multi-site sampling.
- 3. Evidence supporting the efficacy of the whole-school model selected is based on an implementation with a sample population or setting similar to the population or setting of the school being served. The whole-school model must be designed to improve academic achievement or attainment.
- 4. The whole-school model must implement the model for all students in the school.
- 5. The whole-school model must address at a minimum & in a comprehensive & coordinated manner:
 - (A) School leadership
 - (B) Teaching & learning in at least one full academic content area
 - (C) Non-academic supports for students
 - (D) Family & community engagement

The LEA/campus provides assurance that if it selects to implement the **Restart Model**, the campus will meet all of the following federal requirements:

 Convert or close & reopen the school under a charter school operator, a charter management organization (CMO), or an education management organization (EMO) A CMO is a non-profit organization that operates or manages charter schools by centralizing or sharing certain functions & resources among schools. An EMO is a for-profit or non-profit organization that provides "whole-school operation" services

Schedule #4—Request for Amendment

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Part 1: Submitting an Amendment

This schedule is used to amend a grant application that has been approved by TEA & issued a Notice of Grant Award (NOGA). **Do not submit this schedule with the original grant application.** Refer to the instructions to this schedule for information on what schedules must be submitted with an amendment.

An amendment may be submitted by mail **or** by fax. Do not submit the same amendment by both methods. Amendments submitted via email will not be accepted.

If the amendment is mailed, submit three copies of each schedule pertinent to the amendment to the following address: Document Control Center, Division of Grants Administration, Texas Education Agency, 1701 N. Congress Ave., Austin, TX 78701-1494.

If the amendment is faxed, submit one copy of each schedule pertinent to the amendment to either of the following fax numbers: (512) 463-9811 or (512) 463-7915.

The last day to submit an amendment to TEA is listed on the <u>TEA Grant Opportunities</u> page. An amendment is effective on the day TEA receives it in substantially approvable form. All amendments are subject to review & approval by TEA.

Part 2: When an Amendment Is Required

For all grants, regardless of dollar amount, prior written approval is required to make certain changes to the application. Refer to the "When to Amend the Application" guidance posted in the Amendment Submission Guidance section of the Division of Grants Administration Administering a Grant page to determine when an amendment is required for this grant. Use that guidance to complete Part 3 & Part 4 of this schedule.

Part 3: Revised Budget						
			Α	В	C	D
#	Schedule #	Class/ Object Code	Grand Total from Previously Approved Budget	Amount Deleted	Amount Added	New Grand Total

Schedule #5—Program Executive Summary

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver.

Please focus the response on the qualities that enable this specific campus & district team to achieve foundational pursuits of a school improvement undertaking: **accelerated achievement**, **system transformation**, & **sustained reform**.

Summarize the district commitments to achieve foundational elements through the district's:

- Vision & focus for school reform
- · Sense of urgent need for change
- · High expectations for results
- Operational flexibilities that will be afforded the campus in a reform effort

Summarize the district & campus capacity & ability to benefit from this grant in terms of:

- Organizational structures
- Existing capacity & resources
- Communication structures

Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

Vision & focus for school reform: Southwest Preparatory School, NW (NW) is an open enrollment charter school with a population of 82.7% of at-risk & 66.7% EDA. NW underwent a transformation from a dropout recovery program into a college preparatory program in SY2009-10, offering our first-generation high school graduates the opportunity of earning college credit by taking dual-credit courses while still attending high school. This Grant will provide the means for NW to reform into an Early College High School (ECHS) program to enable our students expanded opportunities to enroll in college courses on site & well as with partnering IHEs. During the grant, NW will provide social & emotional supports to our students, connections to social services, parent outreach & involvement opportunities. NW will develop a written course of study plan showing how students will progress as an ECHS graduate & will provide a pathway to a baccalaureate degree which will follow the courses & fields of study listed in the THECB Lower Division Academic Course Guide Manual. NW will identify key partners & will develop a LT focused on P-16 Leadership Initiatives which will meet regularly to address issues of the ECHS design & sustainability. By Fall of 2017, NW will have key partnerships in place that will enable our diverse population of students access to a rigorous curriculum that allows them to graduate with at least 6 semester credit hours toward a baccalaureate degree in Year 1. NW will provide: academic supports to the students in the form of: extended learning time sessions for tutoring, advisory &/or college readiness support time built into the program of study & a college-readiness mentorship program; college awareness & access services to students & families, including: college application assistance, financial aid counseling, college & career counseling; the administration of the Texas Success Initiative (TSI) college placement exam to students in order to assess college readiness, design individual instruction plans, & enable students to begin college courses based on their performance. By Fall of 2018, students have the opportunity to receive a high school diploma & complete the Texas Higher Education Coordinating Board's (THECB) core curriculum or an associate's degree; or at least 60 credits toward a baccalaureate degree by following the courses & fields of study listed in the THECB Lower Division Academic Course Guide Manual. NW will provide: a full-day program operating with: an IHE liaison with decision-making authority who interacts directly & frequently with the campus staff & administrators; a highly qualified teaching staff possessing appropriate level of certification, training & ongoing supports to teach college-bearing courses to high school students; clear opportunities for students to have regular use (at least 6 times per SY) of college academic facilities; & opportunities for high school faculty & staff to receive regular training & support; in collaboration with the IHE faculty & staff. Sense of urgent need for change: Due the transformation from a dropout recovery program to a college prep program, NW has shown an increase in students graduating, from 59.0% for the Class of 2013 to 67.6% for the Class of 2014, the percent of students enrolling in IHE's is only 22.1% & 25.6%, respectively. In 2012 & 2013, the State of Texas had approximately 57% of the graduates enrolled in an IHE. Our goal at NW is to have 100% of our 9-12 grade students in the program with a minimum of 50% of the graduating cohort of 2013-14 (Class of 2017) enrolled in an IHE. By expanding our program to an ECHS, our students will be able to graduate with about half of their 4-year program completed, which will improve that percentage of graduates enrolling in an IHE. As documented on the Focus Group Tool 62.5% of the NW graduates for the Class of 2016 intended to enroll in a 2-yr or 4-yr IHE as compared to 76% for the Class of 2015. We feel that students who will be able to graduate from high school with up to 60 college credits will enhance the current efforts to prepare students for college with our current program. High expectations for results:

Schedule #5—Program Executive Summary (cont.)

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Provide a brief overview of the program you plan to deliver. Refer to the instructions for a description of the requested elements of the summary. Response is limited to space provided, front side only, font size no smaller than 10 point Arial.

NW has high expectations for all students with our vision/mission supporting the current efforts to increase graduation. With the prior transformation, we changed the way we classified our students in grade levels, using the students 9th grade year to signify the student's cohort/class which helps the staff, students, & parents focus on graduation. NW has qualities that enable this campus to achieve foundational pursuits of a school improvement undertaking: accelerated achievement, system transformation, & sustained reform. To transition to an ECHS program, a Leadership Team (LT) incorporating our IHE partnerships will develop/implement/monitor/evaluate our program over the 4-year grant period. By determining critical action points, such as the ECHS location (on/off-site), the allocation of costs for tuition, fees. textbooks, technology & student transportation; alignment of the current Master Schedule to incorporate a college-like schedule to promote alternating classes versus daily classes, enables project learning & portfolio assessment, & encourages personal freedom; providing campus support staff. For our ECHS program to be highly effective, the model requires active collaboration from the college administrators/faculty & district/campus support staff so that decisionmaking procedures will allow for successful planning & implementation of a coherent program across institutions. The IHE Liaison will promote the program to NW, explain it to the community, & champion the secondary/postsecondary coalition in higher education forums. The Program Manager (DCSI) will promote the ECHS concept, command resources, & facilitate support & collaboration for both entities. The program requires the support of the IHE financial aid office & the admissions staff to facilitate NW students' registration for college courses. NW will provide a college experience prior to enrollment in the ECHS program, by providing opportunities for students & support staff to visit surrounding area college campuses as well as those identified on our MOU to reduce the traditional fears of attending an institution of higher education. The college campus visits will provide motivation, expand the student's horizons, & elevate their social-emotional awareness to a college level. For those students attending classes at the college, being on a college campus encourages our students to develop a "future orientation" of the college environment compared to their high school experience as well as benefitting from access to the college facilities, which enhances the resources available to our students. As part of a successful ECHS program, the faculty qualifications & willingness to participate in a shared academic program are critical. The ECHS faculty needs to be flexible, open-minded, highly skilled, innovative, have rigorous academic skills & knowledge, be experts in their disciplines, able to cooperate, confer, & even team-teach with college instructors, &, most importantly, have the desire to work with our diverse at-risk population. Our rigorous academic ECHS program emphasizes high expectations & standards for staff & students. The faculty must see learning not as text-bound & test-oriented but as a continuous process, emphasizing concept development & integrated learning with real-world application. Organizational structures: SWP and NW have existing organizational structures in place which will be enhanced with grant funds for additional staff to collaborate with IHE Liaison for successful development/ plan/allocate tasks/ train/implement/monitor/review/evaluate/adjust the Texas Early College High School, Existing capacity & resources: NW will take the following steps to maintain its existing capacity to provide adequate resources & related support in order to implement, fully & effectively, the required activities of the ECHS Model: Create a clear track record of student data; Increased "transparency" in processes, practices, & investments, including making public, by school, actual school-level expenditures that are associated with regular 7-12 instruction, instructional support, pupil support, & school administration; Increase meaningful stakeholder engagement & support, including: parents, community leaders, IHE Liaison, IHE staff/administrators, teachers, & the principal will be engaged in the ECHS Program; including, evidence that 100% of teachers & staff sign a Grant Commitment Agreement to show support of the Grant Goals & Objectives; to be responsible fiscal agents of the Grant Funds, NW will ensure the alignment of the Grant Budget to the identified needs in the Grant with the assistance of the Program Manager (DCSI), the Program Data Analyst, & Leadership Team. This will allow research-based resources to enable the campus to move from a struggling dropout recovery program to a successful ECHS by substantially raising the achievement of our students; a high-quality plan for developing SWPS capacity & supporting school-level implementation of the ECHS Program Goals & Objectives. Communication structures: The District office & DCSI will be organized to support & provide all necessary services to NW. Implementation of the ECHS Model will translate into meaningful reform & support district-wide change for all schools, & help SWPS reach its improvement goals. Continue implementation of a rigorous, transparent & equitable evaluation system for teachers & principals to analyze performance; reward effective staff or remove ineffective staff.

Amendment # (for amendments only):

Part 2: Student Demographics- Comments

Please use this section to add a description of any data about students that was not specifically requested, but is important to understanding the population to be served by this grant program.

Additionally, use this space to describe trends in data, related to students seen over time in areas that are important to understanding your program plan. Applicants must include supporting evidence to explain trends. For example, projected enrollment growth would need to be supported with a report of percent gains in enrollment over the past several years. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

NW-SWPS has seen a change in the student demographics over the past based on the TAPR/AEIS Reports as well as data collected using Websmart, the student information system. The Hispanic population has risen from 86.5% in SY 2010-2011 (2011 AEIS) to a 95.7% in SY 2014-2015(TAPR) with a corresponding decrease in the African American and White population. This has also impacted the English Language Learner population which has increased from 0.7% to 9.1% over the same time span. For this population, they also experience an achievement gap and are more likely to drop out of school, have low-wage jobs and remain in poverty than their peers. Teachers who do not understand the characteristics of language learners at different proficiency levels cannot support students in their oral language and reading development. Tradionally, NW-SWPS has had a high population of students attending who considered economically disadvatanged, which results in increased gaps in academic achievement due less access to resources, declining real income, increased maternal stress, as well as serious impacts on mental health. Economic disparity also affects students with increased peer problems, geographic mobility, as well as the schools ability to retain good teachers with experience serving large populations of low-income students.

Amendment # (for amendments only):

Part 4: Staff Demographics- Comments

Please use this section to add a description of any data about campus staff that was not specifically requested, but is important to understanding the population to be served by this grant program. Additionally, use this space to describe trends in data related to campus staff seen over time in areas that are important to understanding your program plan. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The trend at NW-SWPS is our students typically enter our high school 2-5 grades levels below their peers in instructional skills, at-risk for dropping out, and are first generation graduates enrolling with insufficient credits to graduate on time; students also enroll with significant social-emotional needs that have not been met in the traditional school setting - one of the main aspects of our mission is to begin building a relationship with each student; it has been our experience that many of our students come with a lack of respect for authority and do not have the desire to complete high school much less go on to college. By building the student's academic, social and emotional capacity, and introducing them to tools for success (seven critical success factors, Steven Covey's 7-Habits, goal setting, problem solving strategies), the student's sense of self-worth is positively impacted and they learn the skill to become empowered, life-long learners. Our mission is to address all student's deficits by providing on-going, high-quality staff delivering rigorous curriculum and instruction with success in delivering outcomes in collaboration with all external providers through longer classes, targeted individual instruction, and by incorporating extra-curricular activities to build self-esteem. According to the 2014-15 TAPR report, NW-SWPS has a diverse student population with 82.6% of at-risk of dropping out and 66.7% considered economically disadvantaged; and with high populations of special education (14.3%), ELL's (9.1%), and a dropout rate of 3.1% report which impacts our graduation rate (67.6%). Despite the diversity of the population, the number of dropouts has been decreasing, to 1.3% for school year 2014-2015 and our graduates have been increasing, projected to be over 90% for the Class of 2016. The NW-SWPS leadership team is comprised of staff who have been at the same campus for at least 5-6 years. It is a source of pride as of the 2015-2016 school year that the current leadership team is "home-grown" with staff moving up from teacher, to Expert Teacher Leader, to Academic Dean, to Principal, resulting in a stable school climate for staff and students alike. NW-SWPS has a systemic support structure for staff resulting in a family-like atmosphere which impacts staff retention rate, high learning expectations and provides students with exposure to a positive adult relationship. NW-SWPS is an openenrollment, college preparatory charter school with limited funds; despite limited finding, our staff has the capacity and desire to provide a curriculum that offers a rigorous and accelerated course of study, in preparatory/college readiness courses. Additionally, our staff provide students with the academic, emotional and social supports necessary to be successful in the rigorous course of study and meet the Federal and State requirements. Our current academic staff have the capacity to work with our diverse population; even though our data shows increased graduation rate and lower dropout rates, this is a result of hard work and a team effort utilizing all instructional skills; it is not uncommon for a core subject area teacher to instruct multiple grade levels and subjects daily. Our students will receive increased academic support in targeted areas from the 2 new teachers and 4 educational aides that will be provided by the TTIPS Cycle 5 funds which will positively impact the academic performance and meet the social-emotional needs of students in the ECHS Program. In addition to our highly-qualified teaching staff, it is apparent that the entire campus support staff assists with the improved results NW-SWPS has been experienced. To prevent truancy issues and dropouts, it is an entire campus effort under the guidance of District and campus personnel, including but not limited to the Dropout Prevention Specialist, Truancy Coach, Social-Emotional Coach, and Special Programs Compliance Officer. To ensure our students understand the transition to a ECHS Program, NW-SWPS will create a variety of communication efforts to inform students and parents, community, and key stakeholders the gift this grant will be offering, allowing students the financial support to attend up to 2 years of college while still enrolled in high school. Interim benchmarks will provide a means to monitor the implementation of the coherent schedule of tasks and activities, culminating in achieving these targets in a logical and reasonable manner. The impact meetings will follow the data to ensure all students in the ECHS Program as well as those trying to enroll in the following year will have all necessary resources, college-level curriculum and high-level personnel support to achieve their goal. To expose our first generation high school graduates, who are historically under-represented in college, to the possibilities of graduating from high school with a minimum of the core curriculum, an Associate's Degree, or 60 credit hours towards a baccalaureate degree, students will acquire the education and experience they need to succeed in life, breaking the cycle of being a "first generation high school graduate" to becoming a first-time college graduate.

Amendment # (for amendments only):

Continuous improvement is a systematic approach in school reform, including processes for data analysis, problem identification, root cause analysis, goal setting, intervention design, implementation, monitoring, & evidenced-based progress reporting.

Part 1: Process Description. Describe the process & activities in which you engaged to conduct a data analysis & needs assessment; & select the model, goals, & interventions to be implemented under this grant. In the description, include the team members involved in the planning process, frequency & timeline of planning meetings, & key activities/strategies used to facilitate decision making.

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Continuous improvement will be central to the success of the Northwest Campus ECHS Program. To ensure the infrastructure & success of the ECHS Program, the Grant Management Team (GMT), in collaboration with the key partnerships, school leadership team, will meet quarterly to continually develop, establish, & improve upon a solid, quality-based management structure to oversee grant activities & to make appropriate modifications consistent with the goals & requirements of the grant. This management approach will allow for input, collaboration, & shared responsibilities among all staff involved in the ECHS Program. The purpose of the oversight is to shape the development of the program from the beginning of the grant period, with clear benchmarks to monitor progress toward specific objectives & the specified performance indicators.

Team Members: the GMT will include: Program Manager (DCSI), Program Data Analyst, Principal, Campus Support Team, Parent/Community Liaison, and IHE Partners.

Frequency/Timeline: The GMT will develop a bi-annual evaluation process that will detail the progress of activities which can be easily compared to the action plan. Ongoing communication will include: review of ECHS program records, documents, and data; student and parent survey results; & observation through college site visits & unstructured interaction with staff, community partners, & participants in the program. To ensure maintaining a high-quality ECHS program, the GMT will be review feedback from stakeholders, campus teachers, parents, students, community members and IHE partners and make appropriate modifications. The data will be used to determine if the promised activities have been carried out as contracted and projected over the 4-year grant period.

Key Activities/Strategies: GMT will monitor, inform, & guide project implementation & its impact from an objective & standardized perspective towards meeting student performance goals and outcomes. Specifically, the Program Manager will apply an accountability system that uses a system of checks & balances to ensure TTIPS Cycle 5 Grant success. GMT will be responsible for collecting initial "outcome" indicator data to establish a baseline "profile" for the grant program. Mid-annual & annual benchmarks for performance/progress that align with the project objectives & outcomes will be established. The profile & benchmarks will be compared at regular quarterly meetings to identify performance strengths, weaknesses, & needed modifications. Performance outcomes will be compiled in bi-annual outcome evaluation report in order to ensure that the grant is congruent to its stated goals. GMT will check for appropriate process documentation, appropriate data collection techniques, proper fiscal handling & reporting techniques, & fidelity. Students, staff, parents & community stakeholders will be encouraged to participate in satisfaction surveys that gather information on their level of access, "buy-in," & satisfaction with college enrichment opportunities, classroom structure, school instructional model, & parental opportunities for involvement. Feedback will be discussed at staff impact meetings, with presentations by students participating in the ECHS program, & in district meetings, with presentations from DCSI, to assess the progress & the integrity of the implementation of the ECHS Model. GMT will develop & forward a list of recommendations for the program improvement if warranted, ensure compliance of the grant expectations, and successfully implementation of the ECHS program to district leadership. NW-SWPS will comply with all grant monitoring expectations and activities.

Schedule #13—Needs Assessment (cont.)

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Part 4: Model Selection-Stakeholder Input. Please describe how student families & community members were engaged in the needs assessment & planning process:

- Describe specific actions the campus/district took to solicit input from these stakeholders in selecting the model.
- Describe how this input was taken into consideration when selecting the model.
- Describe plans to meaningfully engage families & the community in the implementation of the selected model on an ongoing basis.

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Community stakeholders, parents, with District and Campus staff were meaningfully engaged in a comprehensive needs assessment (CNA) in the Spring of 2016 to address campus data and areas of concern and success as well as to evaluate all programs at NW-SWPS. The transition from a dropout recovery to a college preparatory program was discussed in depth. It was noted that 98% of the graduating students in 2016 met the State Assessment requirements for graduation and several of our students took advantage of dual-credit opportunities and there was an increase in the number of students who were able to graduate within 3 years. It was apparent to the committee that the commitment of NW-SWPS staff and their family-like atmosphere were able to address the educational and social-emotional needs of their diverse population (according to data from the 2014-15 TAPR Report: 95.7% Hispanic, 82.6% at-risk of dropping out, 66.7% economically disadvantaged; 14.3% special education, 9.1% ELL's, and 1.3% dropouts). Despite the diversity of the population, the number of dropouts has been decreasing, to 1.3% for school year 2014-2015 and our graduates have been increasing, projected to be over 90% for the Class of 2016, indicating the success of our transformation to a college preparatory program, which leads the committee to have high expectations of the success of moving to an ECHS Program. Key stakeholders such as Alamo Colleges (San Antonio Community college, Northeast Lakeview, St. Phillips, Palo Alto, NW Vista) and Concordia University have a MOU for the 2016-2017 school year to provide implementation support to the ECHS program at NW-SWPS. We have had a continuing relationship with the IHE's listed above for many years to promote a college opportunity for all of our students, targeted emphasis on students identified as low socio-economic status, at-risk for dropping out, and all sub-groups within Special Programs (Students with Disabilities and English Language Learners). Representatives from our IHE's, along with our community partners, Board members, parents/students, Campus Leadership Team, and District Support Staff reviewed data from the 2014-15 TAPR Report to identify areas of concern and discussed strategies to address those issues. The identified areas of concern include: low percentage of students meeting college entrance exam passing standards, low percentage of students enrolled in an IHE, low percentage of students completing 1 year of college without remediation. This extends back to a high percentage of annual dropouts and a low percentage of 4-year graduates. Part of the identified root cause is our students typically enter our school 2-5 grades levels below their peers in instructional skills, at-risk for dropping out, and are first generation graduates enrolling with insufficient credits to graduate on time; students also enroll with significant social-emotional needs that have not been met in the traditional school setting - one of the main aspects of our mission is to begin building a relationship with each student; it has been our experience that many of our students come with a lack of respect for authority and do not have the desire to complete high school much less go on to college. By engaging families in our school district and sharing the transition from a dropout recovery campus to a college preparatory program, we have seen an increase in attendance, academic performance, student engagement, enrollment in dual-credit courses, and students meeting graduation requirements on time. Implementing the ECHS Program, the CNA process will continue to review the ECHS Program's success by incorporating key IHE stakeholders, parents of students enrolled in the ECHS Program as well as parents from our middle school students, community partners, campus and district staff to provide a structured program monitoring process of ECHS Program, promote community business exposure to provide internships, a bridge program from high school to college curriculum, and review multiple data sources a minimum of 2 times yearly. Impact meetings will collect, review and evaluate interim data from benchmarks to assess program effectiveness over the grant. By providing a systemic process to develop, implement, review and evaluate the ECHS Program, sustainability will become a major focus of these conversations.

Schedule #14—Management Plan

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Part 1: Staff Role & Qualifications. List campus & district personnel projected to be involved in the implementation & delivery of the program. Include all positions funded in whole or part by grant resources, along with those personnel involved in the implementation, but not funded through the grant. Provide a brief description of the position role/function in the grant; & desired qualifications, type & years of experience, & requested certifications. Ensure that the list & descriptions demonstrate the district will provide effective oversight & support for implementation of the selected model. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Ke	Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.			
#	Title	Role/Function in Grant	Desired Qualifications, Experience, Certifications	
1.	District Coordinator of School Improvement (DCSI) (required)	Manage the grant, , monitor/evaluate implementation of ECHS Program, monitor/evaluate staff, monitor/evaluate data, manage grant funds in conjunction with Business Office Staff, ensure timely submission of all required reports	Masters in Education required; Knowledge and experience in all Federal Programs; minimum 5 years experience in grant management, strong knowledge of State and Federal accountability, minimum of 5 years experience as DCSI, TAIS process	
2.	Program Data Analyst	Provide data support on all students, ensure staff have access to critical software used for student support, provide accountability projections for instructional planning, provide data for required reports	Bachelor's Degree required, experience with designing and managing databases, ability to process data files, synthesize data for tracking student progress, strong knowledge of general computer programs, knowledge of CSF's research-based instructional support, concept of sub-populations	
3.	Prinicpal	Create a partnership with IHE, joint decision- making procedures for planning/ implementation of coherent program across institutions; create a design team with high- level personnel; schedule/attend frequent advisory meetings	Bachelor's Degree required, Master's Degree preferred; knowledge of Federal and State Accountability/TAIS process; knowledge of CSF's; Principal Certification preferred	
4.	IHE Liaison	Partner with Texas ECHS Technical Assistance provider for training, coaching, and technical assistance; attend frequent advisory meetings	Bachelor's Degree required, Master's Degree preferred; knowledge of Federal and State Accountability/ Texas Higher Education Accountability System; knowledge of CSF's; Principal Certification preferred	
5.	Family/Community Lìaison	Create process to establish relationships with all students, parents and staff; meet as needed with targeted students with identified social-emotional deficits; classroom activities for transition from High School to college	Bachelor's Degree in Counseling; minimum of 10 years practical experience working with social-emotional family needs; 5 years experience in middle/high school environment; 3 years experience with establishing/ maintaining relationships with community stakeholders	
6.	Teacher	Expert in subject area; ability to work with diverse student populations, creative in delivery of instruction, committed to student success, provide college-like atmosphere, enables project learning and portfolio assessment, and encourages personal freedom	Bachelor's Degree required; Texas Education Certification in subject area to be taught; experience working with at-risk students; Master's Degree required for staff to teach dual-credit courses preferred	
7.	Educational Aide	Provide tutoring, guidance, support for targeted students in the ECHS Program	High School Diploma required, Bachelor's Degree preferred; experience working with atrisk students in middle/high school education setting

Schedule #14—Management Plan (cont.)

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Part 3: Commitment & Succession. Describe how the campus & district will ensure that all project participants remain committed to the project's success. Describe your succession management strategies & how this will enable the campus & district to deliver continuous high-quality programming when there are changes in key project personnel. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Southwest Preparatory School District will take the following steps to determine its capacity to provide adequate resources and related support to Northwest Campus in order to implement, fully and effectively, the required activities of the Texas Design Model:

- 1. Create a clear track record including
 - 1. Student outcomes and achievement, including graduation rates, and college-going rates;
 - 2. Make student performance data available to students, educators, external providers, and parents and use it to inform and improve instruction and services.
- 2. Increased "transparency" in processes, practices, and investments, including making public, by school, actual school-level expenditures that are associated with regular K-12 instruction, instructional support, pupil support, and school administration. SWPS will report the following five categories of school-level expenditures from State and local funds:
 - 1. Actual personnel salaries at the school level for all school-level instructional and support staff, based on the Census Bureau's classification used in the F-33 survey of local government finances;
 - 2. Actual personnel salaries at the school level for instructional staff only;
 - 3. Actual personnel salaries at the school level for teachers only; and
 - 4. Actual non-personnel expenditures at the school level (if available).
 - 5. Actual external provider expenditures
- 3. Increase meaningful stakeholder engagement and support, including: parents, community, teachers, and the principal will be engaged in the ECHS Program; including, evidence that 100% of teachers, staff, students, parents, and external providers sign the ECHS Program Commitment Agreement to show support of the TTIPS Cycle 5 Goals and Objectives.
- 4. To be responsible fiscal agents of the TTIPS Cycle 5 Grant Funds, SWP will ensure the alignment of the Grant Budget to the identified needs in the Grant with the assistance of the Program Manager (DCSI) and the Program Data analyst. This will allow research-based resources to enable the campus to move from a dropout recovery to a successful ECHS program by substantially raising the achievement of our students; in addition,
- 5. A high-quality plan for:
 - Developing NW-SWPS capacity and supporting school-level implementation of the ECHS Program Goals and Objectives:
 - 1. The NW-SWPS approach to implementing the ECHS Model to meet or exceed the following identified needs: Northwest Campus will participate in TTIPS grant activities to ensure that
 - i. Meet State and Federal graduation requirements
 - ii. Increase annual attendance rate to 95%
 - iii. Decrease dropout rate to 5%
 - iv. Market ECHS Program to students, parents, community
 - v. Provide professional development for staff on ECHS Program requirements and expectations
 - 2. The District office and DCSI will be organized to support and provide all necessary services to Northwest Campus and the external providers to ensure highest possible quality of the program.
 - 3. Implementation of the ECHS Program will translate into meaningful reform and support school-wide change and help Northwest Campus reach its improvement goals, implementation of CSF's, increased enrollment in the ECHS Program, and be removed from the Priority School list.
 - 4. Continue implementation of a rigorous, transparent and equitable evaluation system for teachers and principals to analyze performance; reward effective staff or remove ineffective staff.
 - 5. Create a process to provide methods to recruit, screen, select, monitor, and evaluate the commitment and effectiveness of all external providers involved in the ECHS Program

Schedule #14—Management Plan (cont.)

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Part 4: Sustainability. What elements of your proposed project are designed to significantly increase capacity or create a lasting change to campus culture & practices that shall be sustained after the grant period ends? How will the LEA provide support to sustain the reform after the grant period ends?

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Northwest Campus, through the Texas state design ECHS model, will be able to address the low IHE enrollment rates (25.6% for the Class of 2013) despite a rising graduation rate (67.6%). Northwest Campus has a rigorous oversight process to address these issues with limited staff by cross training campus personnel to review causes for student mobility, track attendance trends, focus on accelerated curriculum to increase graduation rate, and adopting preventative measures to decrease dropout rates; with the award of Cycle 5 funds, additional staff/support and external providers will be hired to assist with addressing these ongoing identified needs as well as develop and implement an ECHS program which will ensure on-going, high-quality service from our external providers and promote success in delivering student outcomes. Impact meetings will gather, review and evaluate data to ensure the external providers are meeting the needs to the students enrolled in the ECHS Program. With the commitment of the new grant project participants, student success will be evident based on the increased awareness and implementation of all CSF's. To maximize the effectiveness of Cycle 5 funds, our goal is to increase staff awareness of all areas that affect graduation including attendance, graduation plans, focus on student academic growth, and decrease mobility and dropout rates by reviewing data, identifying root causes and trends, and formulating a plan to address identified needs of our student population (with an at-risk student population of 82.6%, economic disadvantaged population of 66.7% and a Special Education population of 14.3%). As an open enrollment charter school, our student population is constantly fluctuating which impacts our previously identified needs; campus leadership will review campus enrollment data on a monthly basis through ongoing data-digs to identify additional academic and social needs and concerns to ensure student success and attainment of the goals and objectives of the grant. By creating an effective method to communicate with stakeholders, community and parents/students the goals, expectations and outcomes of the ECHS Program will provide first generation students the opportunity to graduate from high school with an Associate's degree. To ensure all participants remain committed to the success of the campus ECHS Program, the Leadership Team/Advisory Committee will provide support, program evaluation, monitoring, and responses to grant participant feedback on a bi-monthly basis through Impact Meetings. The Leadership Team will report all findings to not only the campus leadership team but also to District Leadership. In an effort to address student academic, social, and emotional identified needs not being met, the Leadership Team will monitor staff and provide ongoing training and support for targeted staff by developing a success plan, monitoring, and providing feedback to increase targeted staff commitment. A TTIPS Cycle 5 Evaluation Incentive Tool, using rigorous, transparent, and equitable data, will be created so all staff can monitor the campus progress on alignment with grant goals and objectives. This tool will provide staff the ability for self-evaluation to monitor individual progress to foster ownership of campus project goals and objectives. To promote the continuous commitment to the grant reform projects and attainment of the goals addressing identified needs, staff will be awarded annual financial incentives, as well as increased opportunities for promotion and professional growth. After all efforts have been implemented, if there are no changes to the level of commitment of the targeted staff including failure to meet desired campus goals, the Leadership Team will recommend to District Leadership replacement of that position. To ensure all external providers remain committed to the success of the NW-SWPS ECHS Program, the Advisory Committee and District Support Staff (DCSI) will develop a rigorous, transparent oversight process for each provider documenting student participation, academic success, high quality service, retention in the provider's program in order to remain a viable part of the ECHS Program. A student survey will be created to gauge if targeted academic, social and emotional needs have been met. After reviewing all data, the Advisory Committee will communicate with stakeholders, IHE's, parents, students, campus/district staff the results of the evaluation and survey; and provide celebrations of successes or program revision strategies. In an effort to sustain the project's success, Northwest Campus will continue the transition to an ECHS program by 1) attracting additional students who are motivated to have a jump start on a college career path, driving graduation rates higher (Class of 2016 rate is projected at over 90%) and increasing weighted ADA to financially support the identified needs; 2) generating substantial revenue by creating an additional non-profit entity, Southwest Preparatory School Education Foundation, with plans to provide enough funding to sustain the program after the grant period ends; 3) communication endeavors will be put in place to advertise and create partnerships to enhance our ECHS program. The capacity gained through the transition to the ECHS Program will create lasting change to our campus and student culture/climate as well as college-like academic practices that will be continued for our students at NW-SWPS.

Schedule #15—Project Evaluation

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Part 1: Establishing Performance Measures. Describe the processes used to establish challenging yet attainable performance measures that will result in substantially improved student achievement & the campus' ability to exit lowest-performing status. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The process for developing the Northwest campus' performance goals has been/is a continual process of reviewing the current NCLB Comprehensive Needs Assessment (CNA) used for the Campus Improvement Plan (CIP) to support the campus' ability to exit lowest-performing status. The process of developing the CNA included participation from parents, local community based organizations, teachers, campus leadership and district leadership. The site based committee that developed the CIP consists of parents, teachers, administrators and local community based organizations. The academic, social and emotional needs of the students identified by the committee were summarized in the CNA along with the demographics of the school and included all facets of the school. In addition to the CNA, campus principal, DCSI, PSP, and district support staff made presentations about their respective areas indicating what changes if any should be made for the next year for budget planning and program improvement and those recommendations in addition to the CNA were useful in developing goals for this grant. When reviewing the expectations for ECHS Program, the leadership team was asked to examine the campus data and program guidelines and expectations; review/recommend goals for the grant; and after discussing with the stakeholders, to finalize goals. Once all the information was collected the grant writing team reviewed the recommendations and supporting data to determine which goals would be included and what new additional goals would be needed to meet the requirements of the ECHS Program. Those recommendations were carefully reviewed for wording and performance method and performance standard. As the Northwest campus set goals, campus staff were careful to clarify the measures for each goal. Groups involved in development of the goals included: district leadership, campus leadership, campus staff, students, and parents. NW-SWPS will continue the challenging yet attainable process to identify performance measures that will result in substantially improved student achievement and enrollment growth in the new ECHS Program.

Part 2: Data Collection. Describe the processes for collecting data at a detailed level to inform effectiveness of each intervention. Data at a detailed level would include examples such as: participation rates at the activity-level, dosage rates of an intervention per student, teacher practice observed rates at the targeted strategy-level, or academic outcome data at the activity-level per student. Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Campus data is collected on a daily and weekly basis from the Student Information System used by Southwest Preparatory School. This data includes attendance, withdrawals, course completions, course schedules, mobility, graduation, demographics, discipline, and enrollment; assessment results are downloaded weekly from ETS. The data is transferred into the various locally developed student tracking tools and will be used for the TTIPS Data Tracking Tool located on the Remote Desktop and all staff have access to these tools at any time, on-site and off-site.

With the fundiong of the TTIPS Cycle 5 Grant, all teachers will receive a laptop to assist with instruction, scientifically research-based supplemental instructional support, and access to all student data. Students will also receive a laptop for school work and will have access to their data.

Staff are introduced to these data resources during start of school Inservice; additional training occurs during weekly PLC's with the TTIPS Cycle 5 IHE Liaison, Principal with support from the Program Manager (DCSI), and Program Data Analyst; usage is monitored throughout the year by the Accountability Dept. The Impact meetings will focus on prioritized needs using the locally developed tools and the TTIPS Data Tracking Tool. A TTIPS Cycle 5 Evaluation Incentive Tool, using rigorous, transparent, and equitable data, will be created so all staff can monitor the campus progress on alignment with grant goals and objectives. This tool will provide staff the ability for self-evaluation to monitor individual progress to foster ownership of campus project goals and objectives. All data will be reviewed by the Leadership Team, Advisory Committee, and campus to determine program success. District Support Team, including the Dropout Prevention Specialist, District Testing Coordinator, and Special Programs Compliance Officer, will review data for targeted students to ensure all college-like academic measures are successfully accomplished, targeted social-emotional needs were addressed, and students were productive in the ECHS Program. NW-SWPS staff utilize data to drive instruction, make informed decisions, and build necessary bridges for student support.

Schedule #15—Project Evaluation (cont.)

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Part 3: Assessing effectiveness of interventions. Describe the processes & staff responsible for assessing the effectiveness of program activities & interventions on an ongoing basis. How are problems with project delivery to be identified & corrected throughout the project?

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point

Continuous improvement will be central to the success of the Northwest Campus ECHS Program. To ensure the infrastructure & success of the ECHS Program, the Leadership Team, in collaboration with the school leadership team, will meet to continually develop, establish, & improve upon a solid, quality-based management structure to oversee grant activities & to make appropriate modifications consistent with the goals & requirements of the grant and ECHS Program. This management approach will allow for input, collaboration, & shared responsibilities among all staff and external providers involved in the ECHS Program. The purpose of the evaluation is to shape the development of the program from the beginning of the grant period, with clear benchmarks to monitor progress toward specific objectives & the specified performance indicators. The Program Manager (DCSI), Program Data Analyst, IHE Partner, Principal, IHE Liaison, & Campus Leadership Team will monitor, inform, & guide project implementation & its impact from an objective & standardized perspective. Specifically, the grant program will apply an accountability system that uses a system of checks & balances to ensure assessment of the effectiveness of program activities and interventions on an ongoing basis. To guarantee program effectiveness, the staff will be trained to analyze dis-aggregated data using Eduphoria and locally developed student tracking tools to become more proficient at making data-driven decisions for instruction. Data will be reviewed during PLC's with IHE Liaison. Principal to target instruction with external providers and identify socialemotional needs and trends of students for the Family/Community Liaison, Program Data analyst will analyze which TEKS (organized by STAAR classification - readiness, supporting, process) are more difficult to teach, and analyze performance gap of students and the distribution of scores by teacher. Analysis of teachers perception of the hardest to teach standards will be incorporated during Inservice and ongoing throughout the year during PLCs. The IHE Liaison, Principal will work with staff that have identified particular TEKS student expectations they find difficult to teach and transform their competencies in these areas. Teacher observations by campus administrators will provide the means to monitor and support targeted staff to reach their full potential and develop into an ECHS campus. Introducing a collegelike atmosphere or by attending a college campus, will elevate our student's to achieve beyond a high school diploma and will set high expectations for student academic performance in the post-secondary arena. Our committed staff and external providers will work with students historically under-represented to attend college and parents to review student successes and interventions. Students will also learn to track their own progress via Lead4ward resources utilizing their own laptop provided by grant funds. Staff will develop a deep understanding of each of the readiness standards. Color coded "maps" of student performance will be created at the student expectation (SE) level of the TEKS that will help campus leaders to identify critical areas for teacher support and create the context for the level of direction of professional development. By providing college-like instructional staff development and environment, campus and district staff will be able to bridge high school experience to college-level experience. The Leadership Team will conduct a survey and report all findings to not only the campus leadership team but also to the District Leadership team. In an effort to address any areas of identified needs through the ECHS Program monitoring process, the Leadership Team will provide ongoing training and support, develop a success plan, monitor, and provide feedback to all targeted staff to increase commitment. A TTIPS Cycle 5 Evaluation Incentive Tool, using rigorous, transparent, and equitable data, will be created so all staff can monitor the campus progress on alignment with grant goals and objectives. This tool will provide staff the ability for self-evaluation to monitor individual progress to foster ownership of campus project goals and objectives. To promote the continuous commitment to the grant reform projects and attainment of the goals addressing identified needs, staff will be awarded annual financial incentives, as well as increased opportunities for promotion and professional growth. After all interventions have been implemented, if there are no significant positive changes to the level of commitment of the targeted staff including failure to meet desired campus goals, the Leadership Team will recommend to District Leadership replacement of that position. To ensure all external providers remain committed to the success of the NW-SWPS ECHS Program, the Advisory Committee and District Support Staff (DCSI) will develop a rigorous, transparent evaluation for each provider documenting student participation, academic success, retention in the provider's program in order to remain a viable part of the ECHS Program. A student survey will be created to gauge if targeted academic, social and emotional needs have been met. After reviewing all data, the Advisory Committee will communicate with stakeholders, IHE's, parents, students, campus/district staff: effectiveness of program activities and interventions; the results of the evaluation and survey; and provide celebrations of successes or program revision strategies, if necessary.

Schedule #16—Responses to Statutory Requirements

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Statutory Requirement 1: Describe your rigorous review process used to select highest-quality & best-fit external providers for your project. Include processes to:

- Identify a reasonably sized pool of prospective external providers
- · Assess level of experience in delivering the work
- Determine a history of prior success; consistent strong results in similar projects
- · Conduct a risk-assessment related to contracting
- Execute final selection & procurement

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

The current rigorous district review process will be expanded in partnership with the IHE Liaison, Principal and community stakeholders to select the additional high-quality and best-fit external providers for our diverse population of students for the proposed ECHS Program. At this time, the prospective external providers include Alamo Colleges, UTSA, Concordia University, Texas A & M, Our Lady of the Lake, University of the Incarnate Word, and an Academic Support Consultant. As an open-enrollment charter school, our students come from predominantly within the boundaries of Bexar County, Texas. Location was an important factor in choosing Alamo Colleges and Concordia University to partner with, as well as having an established and continuing relationship with these IHE's. Per our student survey, many of our students also showed an interest in attending University of Texas at San Antonio and Texas A & M of San Antonio, Our Lady of the Lake, and University of the Incarnate Word, so a team will conduct the review process with their representatives to negotiate a memorandum of understanding to begin in the 2017-2018 school year. UTSA and Alamo Colleges have a history of providing successful support to ECHS Programs around the State of Texas and in Bexar County. It has been noted at least one of the ECHS in Bexar County has been identified as Exemplary for the past 2. years under the State of Texas Accountability System. All IHE's mentioned have a high level of experience and reputation working with our diverse population by providing interventions and remediation as necessary, a shared vision and common expectations for students and parents, a focus on rigorous instruction and accelerated coursework, a college-going culture that provides high school students with access to college facilities and services, student support systems including tutoring, counseling and mentoring, collaborative teaching and professional development, and reduced barriers to college access for first generation college-goers. ECHS Programs make college success a reality for students who have traditionally been underrepresented in higher education. By working in close partnership, NW-SWPS and IHE's will be able to serve students in a more personalized and efficient manner that leads to higher levels of student success. A panel will select from a pool of at least 10 external providers that have a proven record of success in academic support of high school students transitioning into college. Once the pool has been narrowed down to 3 providers, all data will be disseminated to the IHE Liaison, Principal and DCSI for review. A synopsis of the review results will be presented to the Leadership Team and Advisory Committee for the final selection. It is imperative that the selected providers have the ability to work with our diverse high-school population. The Leadership Team and Advisory Committee will conduct a risk-assessment related to contracting and execute the final selection and procurement process. They will provide a summary to the District Leadership Team to communicate the final outcome.

For TEA	Use Only
Changes on this page have been confirmed with:	On this date:
Via telephone/fax/email (circle as appropriate)	By TEA staff person:

County-district number or vendor ID: 015807

Amendment # (for amendments only):

Statutory Requirement 2: External Provider Oversight. Describe your rigorous & ongoing process to provide oversight to external providers to ensure their continued quality & success in meeting project deliverables. Include in the description:

- Proposed schedule to regularly review external provider performance
- Campus/district personnel responsible for oversight & management of providers
- Process/instruments used to measure & monitor success of providers
- Corrective actions or additional supports utilized to improve provider performance
- Criteria/sequence of actions to be taken to remove/replace a low performing provider

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

We propose to procure the following external providers to enhance capacity of NW-SWPS to implement the ECHS Program: Alamo Colleges, UTSA, Concordia University, Texas A & M, Our Lady of the Lake, University of the Incarnate Word, and an Academic Support Consultant. All external providers will be clearly aligned with the budget and specific strategies, Schedule 8.

The selection process will ensure that External Providers are equipped to facilitate effective teaching, modeling, and learning and have the capacity to assist with implementation of ECHS Program strategies. The process used to recruit, select and provide oversight to external providers is:

- 1. Identify clear purpose and reasons for contracting with an external provider.
- Research-based approach to support all CSFs
- 3. Proven success transforming struggling schools into ECHS Programs
- 4. Engage stakeholders in the clarifying need and ensure the selection process is transparent to stakeholders.
- 5. Articulate the goals of the relationship including measurable expectations.
- 6. Create conditions to attract multiple high quality providers with the skills necessary to meet the students' needs.
- 7. Budget adequate funding to support relationship for the duration of contract.
- 8. Develop a rigorous and transparent process to select a partner whose experience and qualifications match the specified goals.
- Negotiate a contract outlining roles and responsibilities of the external partner which articulate the grant expectations.
- 10. Provide support as needed and appropriate.
- 11. Evaluate the partner's progress toward goals.
- 12. Monitoring and evaluation process will determine if external provider is meeting grant goals and objectives; will be replaced if not successful.

As part of the oversight and management of external providers and to ensure all external providers remain committed to the success of the NW-SWPS ECHS Program, the Advisory Committee and District Support Staff (DCSI) will develop a rigrous, transparent evaluation for each provider documenting student participation, academic success, retention in the provider's program in order to remain a viable part of the ECHS Program. A student survey will be created to gauge if targeted academic, social and emotional needs have been met.

The Leadership Team will develop a process and instruments within the TTIPS Tool to measure and monitor success of external providers utilizing various data sources. After reviewing all data, the Advisory Committee will communicate with stakeholders, IHE's, parents, students, campus/district staff: effectiveness of program activities and interventions; the results of the evaluation and survey; and provide celebrations of successes or program revision strategies, if necessary.

Amendment # (for amendments only):

Statutory Requirement 4: Coordinated & Integrated Efforts. Describe any ongoing, existing efforts that are similar or related to the planned project. How will you coordinate efforts to maximize effectiveness of grant funds? Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Integrated efforts have been employed for several years at the Northwest Campus to prepare students for dual-credit and the transition to college. At the present time, students in grades 9-12 meet with the high school Counselor one to two times annually to review their Personal Graduation Plan (PGP) which includes determining which courses are still needed in order for the student to graduate and plans for the future. Coordination between the high school Counselor, the TTIPS Family/Community Liaison, the IHE Liaison, and the Principal will lay the foundation to expand from a college preparatory program to an ECHS Program by identifying targeted students utilizing the PGP. The grant funds will support their endeavors to increase enrollment and promote the ECHS Program to our middle school students.

Students in grades 7-8 who are considered at-risk for dropping out meet with the Counselor 1-2 times yearly to review their PGP and discuss any issues that may be affecting their academic progress towards their goal to graduate. Once identified, students will be referred to the Family/Community Liaison to address their targeted needs in order to remove any barriers before 9th grade. At the same time, plans for the future including college and career readiness are discussed with the Grade 7 and Grade 8 students by including these students in college visits, participation in the career interest inventory, and encouorage enrollment in a career exploration class as well as all parents of 8th grade students must meet with the Counselor to participate in the selection of a career pathway plan for graduation. For students in Grades 9-11, the Counselor will expose them to career and college readiness through the career interest inventory to continue the conversation of plans for the future. Students participate in college field trips, including a visit to Café College, which serves as San Antonio's "one-stop-shop" for college access advice, guidance, and workshops, a minimum of 2 times per year. In addition for this group of students, the Counselor will meet with students and parents by grade level and individually 1-2 times per semester to begin college awareness and planning. This established process will enhance the ECHS recruitment and enrollment and will communicate requirements of the ECHS Program.

Transforming from a dropout recovery program to a college preparatory program, NW-SWPS has an existing MOU with Northwest Vista Community College which provides for 3-4 college vists for graduating 11th and 12th graders to visit the college for assistance by college staff to complete the application, complete an orientation, receive support in preparation to take the Texas Success Initiative Assessment (TSI), to actually take the TSI, and provide dual-credit opportunities. In addition, the Counselor has a 12-week program for graduating students, beginning in the 1st weeks of school, to support students in making decisions about college, reviewing ACT-SAT testing, applying for financial aid, researching scholarships and answering any and all questions about plans for the future. The Counselor meets with students and parents in the Spring Semester as needed to work with them on an individual basis to refine their plans for college. By transitioning to an ECHS Program, collaborative efforts between the Counselor and IHE Representative will strengthen the current process. The TTIPS Cycle 5 Grant Funds will provide financial support (transportation, tuition/fees/books and other college related expenses) for the historically under-represented student population to attend college – 95.7% of the student population at NW-SWPS is Hispanic as well as first generation high school graduates, breaking the cycle of barriers to higher education for these populations. These funds will provide an opportunity for students who would otherwise not be able to attend college to have this crucial experience while still in high school.

Amendment # (for amendments only):

Statutory Requirement 7: Evaluation Systems for Teachers & Principals, accounting for student growth Applicants proposing a TRANSFORMATION, TEXAS STATE-DESIGN, or EARLY LEARNING model must use a rigorous, transparent, & equitable evaluation system that takes into account student growth as a significant factor. Please review the description of requirements of the evaluation systems under these models in Schedule #2 Provisions & Assurances.

These applicants shall respond to the prompts in the table below.

Applicants not proposing a Transformation, Texas State-Design or Early Learning model shall indicate below with "N/A". Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Describe the data sources for student growth accounted for in the teacher & principal evaluation system. Include how student growth is weighted in evaluation: Data sources will include State Assessment data disaggregated using Eduphoria software for making instructional decisions, lesson plans, data from formal and informal classroom assessments and locally developed student tracking tools, PEIMS, Websmart, state reporting systems; a committee of teachers, principal, and IHE Liaison will be established to develop, train, implement and monitor student learning objectives at 2 points in time

Describe how the evaluation system design includes multiple observation-based assessments & ongoing collections of professional practice:

A multi-dimensional observation tool will be used in conjunction with collected evidence to evaluate and inform each teacher's performance and professional needs as an ongoing system of continuous improvement to ultimately impact student performance which will use multiple formal and informal observations to provide teachers with actionable, timely feedback, allowing them to make efficient and contextual professional development choices that lead to refinement of their practices; this process is not only for teachers but includes Principals as well.

Describe how the evaluation system was developed with teacher & principal

involvement:

In collaboration with community & school organizations, a rigorous, transparent, equitable teacher evaluation system was developed including input from both teachers & administrators. The system aligns with the unique, flexible instructional design, incorporates the CSFs, utilizes multiple observations, measures effectiveness on a continuum of skill development, aligns with increasing teacher effectiveness through professional development, relies on student achievement as a measure of quality. Various dimensions are incorporated such as: design of clear/well-organized, sequential lessons reflecting best practice in both high school & college-like curriculums, align with standards, appropriate for diverse learners; use of formal/informal methods to measure student progress, manages/analyzes data to inform instruction; ensures high levels of learning, social-emotional development/achievement; plans engaging/flexible lessons that encourage higher-order thinking; supports all learners in their pursuit of high levels of academic & social-emotional success; uses content/pedagogical expertise to design & execute lessons, related content & student needs; clearly/accurately communicates to support students/engage parents, deeper learning/effective effort; differentiates instruction, aligning methods/techniques to meet our diverse student needs; formally/ informally collects/analyzes/uses student progress data & makes needed lesson adjustments; organizes a safe/accessible/efficient classroom; reflects on his/her practice; enhances the professional community; demonstrates leadership with students. colleagues, & community members in the school, district & community through effective communication & outreach. Additionally, an evaluation system will be utilized to monitor effective leadership for our campus Principal & the IHE Liaison with the following expectations: will be effective instructional leaders, using data to monitor progress & determine effective, rigorous instructional decisions; will implement interim benchmarks to track classroom trends & determine appropriate interventions; observe staff ensuring they have the capacity to use data to drive effective instructional practices; engage in ioint decision making interventions; focus on academic/college-like results; continuous monitoring in the form of walkthroughs to make sure teachers can describe, plan, & implement strong, rigorous instruction & ensure students are authentically engaged in cognitively challenging & differentiated activities.

Amendment # (for amendments only):

Statutory Requirement 9: Non-Academic/Social-Emotional Supports for Students

Applicants proposing a TEXAS STATE-DESIGN, TURNAROUND, or WHOLE SCHOOL REFORM model must include comprehensive provisions for appropriate non-academic supports, including social-emotional & community oriented services.

These applicants shall list & describe the non-academic, social-emotional, & community-oriented services that will be provided to students in the space below.

Applicants not proposing a Texas State-Design, Turnaround, or Whole School Reform Model shall indicate below with "N/A". Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

NW-SWPS is committed to identifying, providing and supporting all students struggling with social and emotional issues that impact their academic performance. Since 1998, our open-enrollment charter school District has successfully served Bexar County students identified as at-risk of dropping out, economically disadvantaged, historically underrepresented in students attending college, first generation high school graduates that traditional schools have given up on. NW-SWPS has established protocols and partnerships to transition from a dropout recovery to a college preparatory campus, providing extra-curricular activities as means of engaging our diverse population. After collaborating with parents and students, it was brought to our attention that one of the issues in traditional schools was the lack of individual attention, engendering a feeling of being lost in the crowd, as well as increased bullying which was a root cause of students developing low social-emotional esteem. A committee was developed to create a survey for parents and student to suggest extra-curricular activities of interest that would enhance their educational experience at NW-SWPS. The survey results indicated an interest in robotics, chess, fine arts, choir, and intramural sports. Operational flexibility allowed NW-SWPS to orchestrate with community support the Robotics Team which competed last spring and will be enhanced by incorporating the ECHS Program expectations. Interest in the Chess Club has increased over the past few years, with peaked interest in local competitions against other charter school teams. The Fine Arts Club began with small interest in the fall of 2014 by engaging students in reading plays and small-scale presentations to parents and the community. By the end of the 2014 year, under the direction of our Drama and Art teachers, student interest expanded and culminated in performance at a State competition. Like a rocket ship, the intramural sports program blasted off - to our surprise, those students that had been identified as at-risk of dropping out and with chronic truancy issues became engaged in school. We increased the intramural sports program and found other charter schools to compete against, not just locally but with charter schools in other cities across the state of Texas, which provided our students with a sense of adventure, and school pride. It should be noted that this was a first for many of our diverse population of students to not only participate in a variety of clubs and activities but to travel with their peers outside their neighborhood boundaries. As a by-product of teacher and administrative staff support at each of the events, there was a marked improvement in student attendance, grades, effort, and attitudes indicating that the student's social and emotional needs were being addressed by the various engaging activities. For those students who continued to struggle and needed support, NW-SWPS provided guidance and interventions from the Dropout Prevention Specialist (who is a certified math/special education/health teacher, has a history of successfully working with at-risk students), and the campus Counselor. A team and an informative process is in place to address college awareness to current and prospective students and families, including: application assistance, financial aid counseling, and college and career counseling for our ECHS Program. A partnership with the external providers will enhance our team and process to elevate our efforts in the transition from a college preparatory program to an ECHS Program. Each year, the mission of our Director of Post-Secondary/Career and Technology is to establish relationships and partnerships with business and community entities to expose our diverse students to a variety of potential career options, signature experiences and possible internship opportunities which will engage our diverse population in business and community arenas and provides community service activities to develop motivated, productive citizens. With a foundation of extra-curricular activities and expectations presently in place, the ECHS Program will expand the opportunities for a variety of challenging activities by incorporating a college-like atmosphere and/or attending a college campus which will expose our students to plethora of extra-curricular opportunities from each of the external providers which will support students in their course of study through enrichment opportunities. An evaluation will be conducted with student and parent input to assess the impact of the extra-curricular activities and the campus will review the data to determine the effectiveness of the various activities in meeting the student's social and emotional needs as well as highlight student successes.

Amendment # (for amendments only):

Statutory Requirement 10: Developing an Early College school-wide strategy

Applicants proposing a **TEXAS STATE-DESIGN** model must deliver a comprehensive school improvement strategy, implemented for all students in the school, which is consistent with the Texas concept for developing an *Early College High School* (ECHS). Please review the description of the Texas State-Design model in Schedule #2 Provisions & Assurances.

These applicants shall respond to the prompts in the table below. Applicants not proposing a Texas State-Design model shall indicate below with "N/A".

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Identify the IHE partner that will be in place for the early college high school development & implementation. Include the title/role of the IHE primary point of contact, & essential agreements reached at this point:

SWPS has a Memorandum of Understanding (MOU) with Alamo Community Colleges at the present which pertains to: provide administrative oversight, planning materials, a staff liaison, and sufficient staff members to assist interested students in completing the College Connection activities identified by the NW-SWPS and Alamo Colleges staff; commit to a minimum of two events per school year, one event to take place during the Fall semester at one of the Alamo Colleges and one event to take place during the Spring semester at one of the Alamo Colleges to include preliminary college enrollment information and hands-on assistance; will provide to all College Connection students an Alamo Colleges' Transition to College letter with a First Time In College Enrollment Checklist, registration information, tuition/fees, and financial aid information; will make college and career exploration resources available to all College Connection students; and provide information related to Alamo Colleges' degree/certificate options and Texas Success Initiative ("TSI") requirements. SWPS also has a MOU with Concordia University to provide dualcredit opportunities for our students on site as well as professional growth opportunities for our staff by providing a Master's in Education Program on site. As the student survey indicated an interest in attending Our Lady of the Lake and University of the Incarnate Word, SWPS will pursue the initiation of an MOU with these IHEs. Additional IHE partners will be contacted to join our ECHS Program beginning in spring of 2017.

Describe the sustainable source of funds or fee waiver plan that will enable students to access college courses, TSI assessments, textbooks & college fees; without cost to the student:

In an effort to sustain the project's success, Northwest Campus will continue the transition to an ECHS program by 1) attracting additional students who are motivated to have a jump start on a college career path, driving graduation rates higher (Class of 2016 rate is projected at over 90%) and increasing weighted ADA to financially support the identified needs; 2) generating substantial revenue by creating an additional non-profit entity, Southwest Preparatory School Education Foundation, with plans to provide enough funding to sustain the program after the grant period ends; 3) communication endeavors will be put in place to advertise and create partnerships through various activities within the community to enhance our ECHS program. The capacity gained through the transition to the ECHS Program will create lasting change to our campus and student culture/climate as well as college-like academic practices that will be continued for our students at NW-SWPS.

Statutory Requirement 11: Developing an Early College school-wide strategy (continued)

Applicants proposing a **TEXAS STATE-DESIGN** model must deliver a comprehensive school improvement strategy, implemented for all students in the school, which is consistent with the Texas concept for developing an *Early College High School* (ECHS). Please review the description of the Texas State-Design model in Schedule #2 Provisions & Assurances

These applicants shall respond to the prompts in the table below. Applicants not proposing a Texas State-Design model shall indicate below with "N/A".

Response is limited to space provided, front side only. Use Arial font, no smaller than 10 point.

Describe the processes the LEA/campus will take to build the number of college courses available to students to gain during high school to a minimum of six (6) by the start of the 2017-2018 SY to sixty (60) by the start of 2018-2019 SY:

NW-SWPS, within a logical and reasonable timeframe, will determine the target population, create partnership agreements, design a leadership team to include highlevel personnel with decision making authority to create leadership initiatives and ECHS expectations, provide rigorous course of study, college-like curriculum and support, student access to college readiness with the design of individual instructional plans, preparation for the TSI, create a full-day autonomous school design with a designated IHE Liaison/Principal. The Leadership Team will train campus staff on reviewing student data, ECHS Program expectations and goals, and each of the external provider's enrollment processes to ensure the number of college courses available to our students in Year 1. NW-SWPS, with input from the IHE Liaison/Principal, will develop pathways for current students and incoming students to select, which will identify their graduation goals along the lines of: Pathway 1 - the student will graduate and be ready to successfully complete the TSI to enter college; Pathway 2 - the student will graduate with either a Level 1 Certificate or up to 42 college credits completed; Pathway 3 - the student will graduate and will have completed the core subjects (42) credit hours) on their way to completion of an Associate's degree; and Pathway 4 - the student will graduate with an Associate's Degree (60 credit hours). By the fall of 2017, NW-SWPS will determine which current courses will align to college level courses to be able to offer a minimum of 6 courses to the students as part of the core requirements for an Associate's degree. At this time, NW-SWPS will realign the curriculum to match the program guidelines and requisites for the following Associate's degrees: Business Administration, Liberal Arts and Criminal Justice by the fall of 2017. However, a degreeinterest survey will be created in the fall of 2017 to determine any additional courses of study students may be interested in pursuing. The MOU will be adjusted to address the additional degree plans and to provide opportunities for student exploration of other degree's available.

Describe the academic, social, college readiness & college access services that will be in place by Fall 2017, to support student success in college-level coursework & continued post-secondary education pursuits:

At NW-SWPS, students in grade 7 and 8 are offered a CTE course, Career Exploration, which provides an opportunity for career exploration and interest inventory. NW-SWPS has an MOU with Northwest Vista Community College which provides for 5-6 college visits for graduating 11th and 12th graders to visit the college for assistance by college staff to complete the application, complete an orientation, receive support in preparation to take the Texas Success Initiative Assessment (TSI) and to actually take the TSI. In addition, the Counselor has a 12-week program for graduating seniors, beginning with the 1st week of school, to support students in making decisions about college, reviewing ACT-SAT testing, applying for financial aid, researching scholarships and answering any and all questions about plans for the future. The Counselor meets with projected graduating students and parents as needed to work with them on an individual basis to refine their plans for college. In collaboration with the Director of Post-Secondary/ Career Technology, meetings and home visits with students and parents help provide quidance to our first generation high school graduates for pursuing a post-secondary endeavor. Computer software has been purchased to assist with college readiness preparation for the TSI, ACT, and SAT. Benchmarks will be utilized to determine success on the college entrance exams, teacher classroom effectiveness, mastery in tested state assessment subjects and dual-credit college-level coursework. The Leadership Team will review data to determine the academic, social, college readiness and college access services of the external providers will be in place to support our diverse population to succeed in the college-level coursework and continue postsecondary educational pursuits by the Fall of 2017.

Amendment # (for amendments only) TEA Program Requirement 2: Interventions & Resources to meet Model Requirements- INCREASE TEACHER QUALITY County-district number or vendor ID: 015807

Critical Success Factors are the key research-based focus areas, aligned with the statutory requirements of this program, under which school improvement initiatives shall be planned. Research provides evidence that effort & investment in these focus areas is most impactful to achieve continuous school improvement.

Academic Performance is the foundational Critical Success Factor. Through gains in Critical Success Factors of teacher quality, effective leadership, data-driven instructional decisions, productive community & parent involvement, efficient use of learning time, & maintaining a positive school climate, campuses can increase academic performance for all students.

- List the <u>key interventions</u> the campus will implement to increase teacher quality in order to achieve increased academic performance.
- Provide a <u>description of grant costs</u> named in the Budget Schedules, indicating how costs will support the intervention to increase teacher quality.

Use Arial font, no smaller than 10 point.

Critical Success Factor: Increase Teacher Quality

	Planned Intervention	Description of Grant Costs to Support Intervention (Budget Narrative)
-	Train and implement the use of a rigorous, transparent, and equitable evaluation system for teachers developed with teacher and principal involvement to determine teacher effectiveness through walkthroughs, observations and feedback	The Program Manager and Program Data Analyst, in conjunction with campus and district staff, will oversee training on the Teacher Evaluation System.
2.	Identify and reward teachers and support staff who have, by implementing the ECHS Program, increased student achievement and high school graduation rates utilizing the TTIPS Data Tool	A survey to target professional development needs will be developed under the guidance of the Program Manager, IHE Liaison, and the Principal to identify staff training needs.
က်	Provide ample college-like professional development opportunities for all staff, and additional targeted professional development for staff who have been placed on a growth plan or a TINA	A survey to target professional development needs will be developed under the guidance of the Program Manager and the Principal to identify staff training needs. Staff will attend in- and out-of-state conferences supporting this intervention.
4.	Create/prepare social and emotional supports for the students, including: connections to social services, parent outreach and involvement opportunities	The Family/Community Liaison will work with Principal and IHE Liaison to determine needs and facilitate organization and delivery necessary services to support needs of students and parents
Š	Prepare staff to be equipped with the resource to effectively work with student populations historically under-represented to attend college	The Program Manager, in conjunction with the Principal and district staff with support from IHE Liaison, will oversee training. Staff will attend in- and out-of-state conferences supporting this intervention.
